## Work Experience

RuDASA  
2022

### Lead Frontend Developer

This consisted of a year-long project in University whereby a team and I were required to completely redevelop the RuDASA website. This included linking all of the content on the website to markdown files to allow for easy content-updating. I was responsible for redesigning the frontend, implementing the frontend and linking the markdown files.

### Tutor

During my studies, I was also responsible for tutoring modules in the year below me. The fields I tutored include: "Introduction to web development - HTML, CSS, JS", "3D Modelling - 3DS Max", "Advanced web development concepts - XML, PHP, React, MongoDB, ES6".

Bursary Buffet  
2021 - Present

### Lead Frontend Developer, Shareholder

This is a startup non-profit organization that I am a part of. It involves in the creation of a bursary platform that automates searching and applying for bursaries by providing it with all necessary information. Its purpose is to make it easy for matrics to acquire bursaries by acting as the middle man.

## About Me

### Who I am

I am an aspiring Full Stack Developer. Growing up, I have always had an insatiable desire for creativity and perfection. This, coupled up with my thorough enjoyment in coding, lead me down my current path. The idea of being able to produce anything from scratch intrigues me. This also includes designing vector graphics, 3D renders, animations and even music. My passions lie in coding, graphic design, video editing, music production and piano.

I am able to pick up new skills very quickly, and always complete my deadlines early. In the event of time constraints, I thrive under pressure.
